Report on Webinar

Department of Computer Science

Topic: Introduction to Agile Methodologies

Date – 08/2/2020
Time – 12:45am- 1:40 am
Venue – D31 Class Room
Class- II YEAR B.C.A

Objective: The aim of the **AGILE methodology** webinar was conducted to give a basic idea related to the software models and how it's related to the real world.

About the workshop:

AGILE methodology is a practice that promotes continuous iteration of development and testing throughout the software development lifecycle of the project. It comprises various approaches to software development under which requirements and solutions evolve through the collaborative effort of self-organizing and cross-functional teams and their customer/end user.

The speaker of the session Ms. Divya S, Scrum Master,Euromonitor International, Bangaloreis experienced with 9+ years in the IT field with strong knowledge in Software Engineer. She explained the basic concepts of Software Models like water fall model and its disadvantages and related to the advanced technology Agile Methodologies in the real time application like Myntra which keeps tracks on the data, details of the customer and products toII year BCA students through Skype.

Topics covered in this session are

1. Introduction to Software Models and Agile
2. Types of Scrums used.
3. Applications were its used and how to maintain the software.
4. Scrum Board.

Profile of the Speaker

Ms. Divya S -Resource Person's Name
Scrum Master
Euromonitor International

Conclusion: It was observed that the knowledge of the students was satisfactory for most of the variables like understanding the software models and How where the software models are been used.
