Conducted by: Leo Club “Elite Horizonite”

Attended by: II sem B.Com students (101 students)

Time: 11:00am – 12:00pm (Saturday)

Objective of the program:

- To understand the adolescent brain.
- To understand that having a positive attitude will create more opportunities that will lead to success, thus making it the key to success.

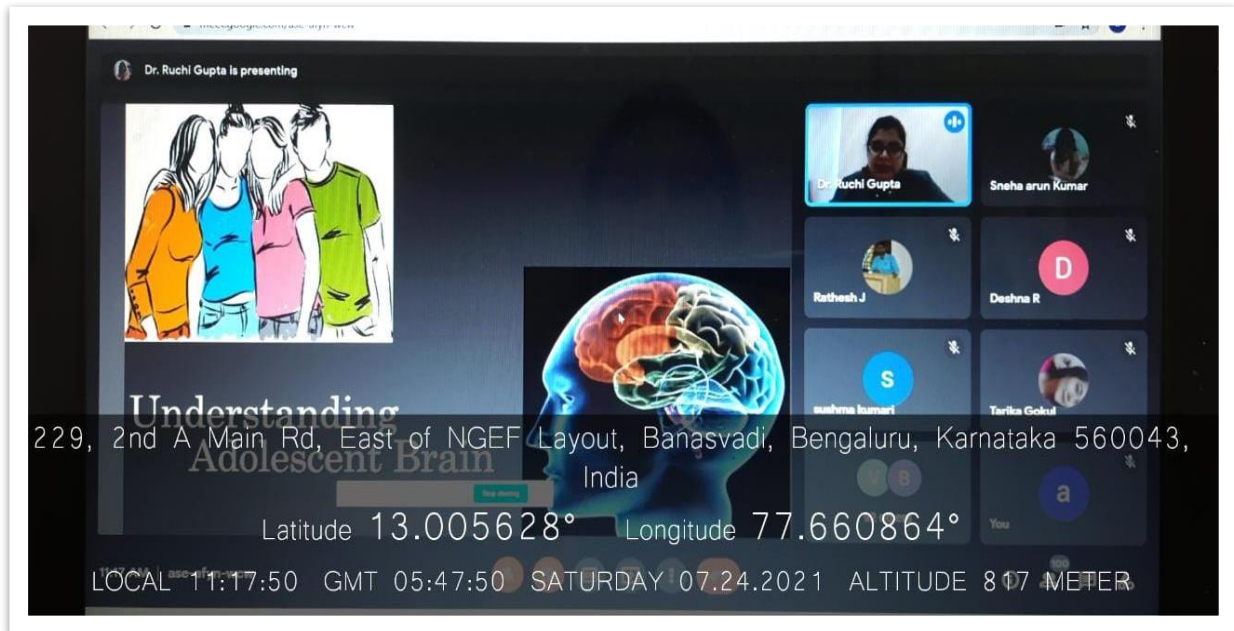

A thought provoking session on “the power of positive mind-key to success” was organized on 24th July 2021. The speaker for the session was Dr. Ruchi Gupta, a practicing psychiatrist at St. Philomena hospital, Santhosh Hospital and Abhayahasta Hospital, Bangalore.

Highlights of the program:

Positive thinking and mindset are a set of ideas, emotions, and actions, that cause an individual to respond constructively to negative circumstances and make the best of those situations.

The program enabled the students to understand about brain development during adolescence. The speaker Dr. Ruchi Gupta gave an insight on Different way the brain reacts to behavioral changes in a person.

Dr. Ruchi Gupta explaining the understanding the adolescent brain

Points Discussed:

- Difference between happiness & pleasure.
- Changes in the brain during adolescence.
- Breaking the myths of adolescence.
- ANTS-Automatic Negative Thoughts
- The hormones release by brain on various emotions: dopamine, serotonin, oxytocin, and endorphins.

To begin with Dr. Ruchi Gupta gave an overview on different parts of the brain and about neuro plasticity which means the ability of the brain to change and grow over the life span. Understanding the importance of the hormones like dopamine and serotonin in the brain and body and their impact on mental health. She added that experience changes and strengthens the structure and function of the brain.

Dr. Ruchi Gupta is presenting

Difference between Happiness & Pleasure

True happiness = Serotonin Pleasure = Dopamine

VS

- Not addictive
- Long term
- Inspires giving
- Ethereal
- Shared
- "This feels good & this is enough"

- Addictive
- Short term
- Inspires taking
- Visceral
- experienced alone
- "This feels good, I need more".

Speaker giving insight on essence of adolescence

The speaker gave an insight on how to understand adolescents brain, what it goes through, what triggers it, how it reacts to the motion its triggered by. She explained all the elements of the essence of adolescence The **essence of adolescence** based on the changes in the brain are increased emotional intensity — living with passion and vitality, social engagement — connecting and collaborating with their peers, novelty seeking — seeking rewards in trying new things.

Dr. Ruchi Gupta is presenting

Myth- 3

Myth: Adolescence is a period of immaturity and we don't mature until the mid-20's.

Truth: Adolescence is a necessary period of growth and change.
