of the Ozone Layer, 17 September, 2018**

WORLD OZONE DAY

2018 – 2019

**“EARTH WITHOUT OZONE IS LIKE
A HOUSE WITHOUT ROOF”**

ECO CLUB

REPORT ON WORLD OZONE DAY 2018

The ozone layer, a fragile shield of gas, protects the Earth from the harmful portion of the rays of the sun, thus helping preserve life on the planet.

The **ECO – CLUB** committee organised World Ozone Day on 17th September will seek to celebrate the major accomplishments of New Horizon College, Kasturinagar in protecting the ozone layer and the climate, to increase public recognition of the success and impact of the Protocol, and to generate further support for the college. As an educational initiative and a step to prompt, young minds to start contributing their bit in nurturing and looking after ‘MOTHER EARTH’

The phase out of controlled uses of ozone depleting substances and the related reductions have not only helped protect the ozone layer for this and future generations, but have also contributed significantly to global efforts to address climate change; furthermore, it has protected human health and ecosystems by limiting the harmful ultraviolet radiation from reaching the earth.

The Eco-Club committee on the occasion of World ozone day conducted a slogan writing competition, collage competition and poster making competition creating awareness about the problems faced due to ozone layer depletion. The students actively took part in the competitions and made it a successful event.

Reducing the carbon footprint, be it in our personal lives or industrial activity remains key to saving the Earth from environmental degradation, say the students of New Horizon College, Kasturinagar, while celebrating world Ozone day this Saturday the 17th of September 2018.

Students and faculty member actively participated by wearing green clothes, making colourful posters and shouting slogans like, ‘Protect the ozone layer!’ ‘ Earth without ozone, is like a house without a roof.’
