

REPORT

Date: 12th June 2019

Club Name: Elite Horizonites

Subject: Ayushman health card survey

Venue: Kallahalli Village

The “Ayushman health card survey” and “Village Enlightenment” was held on 12th June 2019 from 10am to 1pm at Kallahalli village.

The purpose of the Health card survey was to ensure all the people of the village to obtain a Health card and enjoy the benefits of the Ayushman Health Scheme. The Village Enlightenment was very useful in order to know the problems of the villagers and finding solutions the best of our knowledge.

The survey was a success as we covered the maximum people. Many of people had not heard about the health card, so we took the initiative to introduce them to the scheme and helped them enrol them to the scheme. We helped them realise the benefits of the scheme and how to utilise the health cards.

The villagers cooperated a lot in order for us to know their problems, many included household problems and the overall village problems which came into our attention were at a bad stage which need immediate attention.

The Village elders and our coordinator had helped us immensely to realise the situation of the villagers. Our 20-member group made four groups and had gone to do the survey around the village and were able to find out the problems of the village.
