

Date: 3<sup>rd</sup> October, 2019

Place: New Horizon College, Kasturinagar

Club Name: Leo Club Elite Horizonites

Subject: Blood Donation Camp

On this day, the premises of New Horizon College, Kasturinagar witnessed a heart-warming scene wherein a lot of donors wished for donating their blood to the Blood Bank in order to help a needy one gain a ray of life. A day before the overwhelming camp, Lion Deepak from Lions club of Bangalore Host, Dr.Beena from NIMHANS and Leo Subramani the president of Leo club Elite Horizonites made sure that they spend some more time in educating the students of the New Horizon College, Kasturinagar in order to see to it that more doubts of the students are cleared, which in turn results in more number of donors since many of the students carried fear of syringes being re-used, nausea after donating blood and blood banks being vague in what they would do with the blood packets.

As part of the duty Dr.Beena from NIMHANS informed that each of the syringe that was attached to each pump was unique and that even if the syringe were to be re-used, it just wouldn't fit in a different packet because of sheer uniqueness of each syringe with their corresponding packet, she also informed the students to have their breakfast and lunch in order to donate blood without any problems and finally she and Lion Deepak made sure that they comforted the students by stating that each of the blood packet was going to be delivered to the ones in need of it only and not for any other purposes whilst Leo Subramani made sure that he introduced Lion Deepak and Dr.Beena to each class in order to ensure that information about the blood donation camp and its advantages took place in a smooth, systematic and efficient manner.

The perfect way to start the day is to smile.

The camp started by 10 AM and ended at 3 PM and a total of 164 units of blood has been collected for a noble cause, which is to give life to people in need. NIMHANS and Lions Blood Bank ensured that the blood packets were collected in a hygienic manner and moreover saw to the fact that the packets were properly stored in order to make each blood count.

Time to get yourself registered as a donor.

Calling all Blood donors!

Leo Vishnu, Leo Gayatri, Leo Om Prakash, Leo Harsha, Leo Tarun and Leo Subramani ensured that the blood donation camp was carried out in a seemingly smooth and systematic manner. Lion Deepak ensured that refreshments were provided to each blood donor and he also ensured that the donors take rest in the blood donation camp for at least an hour, even after donating their blood. Leo Subramani, the president made sure that the doctors that were tirelessly doing their work, didn't run out of energy themselves and therefore he took it upon himself to get lunch for the doctors.

Let us all together make sure that each pint of blood counts!

In the end I would like to thank our principal Dr.Vijaya Reddy, Divya mam (Leo club advisor) and especially the Doctors in making the blood donation camp a very successful event.

Last but definitely not the least! A big cheer! to the team of experts from Lions club Bangalore, for helping us out in carrying out such a camp with utmost ease, efficiency and inspiring us to do good and make a positive impact on the society. Kudos to the energetic and smiling members of Leo club Elite Horizonites in making this Blood donation camp a huge success.
