

Report on visit to Garden City Jeevitha Anathashrama

Date: 07-03-2022

Place: Garden City Jeevitha Anathashrama (Jeevitha Ashrama)

Conducted by: Leo Club Elite Horizonites and Department of Commerce

Time: 2:30-4:30 PM

The objective of the Program:

1. To sensitize the students about social issues and make them aware of the dire situations such as hunger, necessities etc.
2. To inculcate the community serving mindset and prepare the students to be compassionate and orient them to be part of social welfare.

Leo Club - Elite Horizonites and Department of Commerce organised a visit to an orphanage on 7th March 2022 to Garden City Jeevitha Anathashrama (Jeevitha Ashrama), an all-community boys' and girls' orphanage, currently with 50 children between the age group of 4-16 years.

Due to the economic effects of the pandemic, orphaned children were among the most vulnerable groups faced with hunger and deprivation. Leo club of New Horizon college had taken an initiative to help the under privileged by providing Groceries and essential toiletries. The students volunteer to donate generously for the cause.

Despite fighting with the odds their heart-warming welcome was overwhelming. This visit was an unforgettable one for the students. This noble cause of spreading smiles and happiness among these less privileged children gave immense peace and happiness to our team of students.

Fun time with inmates

The games played with kids made the environment lively and lighter. They spent some quality time with the children in the orphanage and it was the most worthwhile time ever spent. The students interacted with the children. All the children looked excited and joyful.

The students handed over the grocery items and essential toiletries to the caretaker of the orphanage which was collected in the college. In the end snacks and chocolates were distributed to the children.

Donated groceries to Jeevitashrama

The visit and the interaction with those children made most of the students think how lucky they were. The team spent an hour with the children before saying goodbye to them.

The outcome of the program:

The visit had made our students empathetic and compassionate for the underprivileged and the needy ones.
