Date: 14th September 2019

Club Name: Elite Horizonites

Subject: plastic free village campaigning

Venue: Kallahalli Village

Media link: <https://www.youtube.com/watch?v=usIRGslitHA>

A few days back we received an opportunity to visit Kallahalli village, which is adopted by the Leo club under Unnat Bharath Abhiyan.(UBA). The village was a very beautiful one and in order to make it an even better place the enthusiastic Leos had many ideas to implement and decided to make their ideas into reality in a slow and steady manner.

The ideas were taken into consideration by the board and upon much thinking and hypothesis conclusions were drawn and in order for the result to be fruitful we took it in a “slow and steady wins the race” manner. All the Leos were ready to create an awareness on how harmful plastic can be, if used in anyway and we also collected waste plastic while creating awareness among the villagers.

But of course, the villagers used less plastic and used harmful methods to dispose plastic, we created awareness on how the plastic affects the village and the right way to dispose the plastic and also how we can totally stop using plastic using various ideas such as distributing cotton bags to the villagers.

Leos ensuring that every place was double checked in order to clean up the village.

Deposit your plastic bags and take away cloth bags, New marketing strategy opened up by the Leo Club Elite Horizonites

Leos to the rescue!

Leo club Elite Horizonites reached the village at 10:15AM and were very welcomed by the villages and their village head Mr. Srinivas A, the president of Gram Panchayat of Kallahalli village and we started by collecting information about the village from the villagers. The information was very useful for the Leos in order to approach the villagers and create awareness about the usage of plastic, the villagers supported the campaign wholeheartedly and pledged themselves that they would refrain from the usage of plastic entirely.

The campaign was very successful and the villagers along with the Leos had helped each other by collecting the plastic around the village and recognized the ways on how to use other means like cloth bags and other type of bags. We also distributed cloth bags while we collected plastic around the village thereby creating awareness to use less plastic and use more cloth type bags.

I would like to end this report by stating that the opportunity that was given, not only helped the villagers of Kallahalli but also the Members of the Leo club Elite Horizonites learn more about villages. I am grateful to the college to give us such a wonderful opportunity and the Members are all equally grateful to receive such an incredible opportunity to visit Kallahalli Village.
